EDUCATION

Amrita Vishwa Vidyapeetham

B Tech CSE

Coimbatore

10/2022 – 03/2026

Sri Lathangi Vidhya Mandir Higher Secondary School

High School

Pollachi

2020 – 2022

TECHNICAL SKILLS AND INTERESTS

Languages: Python, HTML, CSS, JavaScript

Databases: MySQL, PostgreSQL, WatermelonDB

Libraries & Frameworks: Pandas, Numpy, Hadoop, Hive, ExpressJs, Fastify

Tools and Technology: Visual Studio Code, Linux, Git, GitHub, Figma, Postman

PROFESSIONAL EXPERIENCE

Home Idea Technologies

Software Developer Intern

Coimbatore

04/2026 – Present

- Developing cross-platform mobile applications using React Native, Node.js, and the MERN stack for high-performance user interfaces.
- Designing and implementing backend services and RESTful APIs, handling business logic, database interactions, and end-to-end API integration.
- Managing full-stack development lifecycle including version control using Git/GitHub.

PROJECTS

File Transferring System

- A network-based file transfer platform enabling seamless sharing of video files between a client and server.
- It supports efficient data exchange with error handling and saves received files in local system.

Real Time Collaborative Canvas

- Launched real-time collaborative drawing platform supporting 20+ simultaneous users per room with WebSocket technology, maintaining 90% connection stability.
- Crafted server-side state management system with persistent room history and unlimited undo/redo functionality, handling 1000+ operations per session.

Object Detection

- Developed an object detection system using Histogram of Oriented Gradients for feature extraction, enabling accurate classification of visual data with minimal preprocessing.
- Evaluated and compared SVM and Random Forest classifiers, optimizing model performance and achieving high accuracy in detecting object categories such as "Full" vs "Missing" egg cartons.

Network Management System

- Created a hybrid data structure to manage network topology, improving the efficiency of network operations.
- Obtained knowledge about routers, switches, and data visualization techniques.

CERTIFICATES

Web Development — Coursera

Completed a course on web development with HTML, CSS and JavaScript on Coursera.
